

# Motorcycle Engine

This motorcycle engine features a silver-colored crankcase and cylinder head with cooling fins. Electrical components such as the starter motor and wiring harness are visible.

## Overview

### High-Performance Single-Cylinder Engine

This robust single-cylinder, four-stroke engine is engineered for reliability and efficient performance in smaller motorcycles and scooters. Featuring a durable silver-colored crankcase and optimized cooling fins, it ensures consistent heat dissipation during operation. The unit comes fully equipped with essential electrical components, including a pre-installed starter motor and wiring harness, facilitating seamless integration for assembly.

## Technical Specifications

### Cooling System

Air-cooled

### Engine Configuration

Single-cylinder, four-stroke

### Finish

Silver

## Components

### Included Components

- Starter motor
- Wiring harness
- Crankcase
- Cylinder head
