

Motorcycle Exhaust Muffler for Ninja 250/350

This motorcycle exhaust muffler is designed for Ninja 250 and 350 models. It enhances exhaust flow and is intended for racing applications.

Product Overview

High-Performance Racing Exhaust Muffler

This modified exhaust pipe is specifically designed for small motorcycles like the Ninja 250 and 350 series. Engineered for racing applications, it features a high-flow design to optimize power conversion and performance. The durable construction and specialized dimensions ensure a precise fit for street and track use.

Technical Dimensions

Detailed dimensional specifications for the racing exhaust muffler.

Key Dimensions

213 mm

Total Length

51 mm

Rear Diameter

89 mm

Front Diameter

Detailed Measurements

Component Section	Measurement
Main Body Length	150mm
Front Section	13mm
Rear Section	50mm
Inlet/Outlet Inner Diameter	Ø51mm
Outer Body Diameter	Ø89mm

Compatibility & Usage

Usage Restriction

FOR RACING USE ONLY

Compatible Models

Ninja 250, Ninja 350, Ninja 250R, R6, K8, K9

Product Features

Design Features

- Cylindrical body construction
- Perforated end cap design
- Power conversion optimization
- Modified SC style for street/track
