

Motorcycle Foot Pegs

These motorcycle foot pegs enhance rider comfort and control. They are made from durable materials, providing a stable platform with a ribbed rubber surface for improved grip.

Product Overview

High-Performance Motorcycle Footrests

These motorcycle footrests are engineered to provide riders with superior comfort and enhanced control during operation. Constructed from durable, wear-resistant materials, they feature a specialized ribbed rubber surface designed to maximize grip and minimize slippage in various riding conditions. The robust design ensures long-lasting performance, while the universal compatibility allows for easy installation on standard motorcycle mounting points.

Design & Construction

Key Benefit

Enhanced Grip • Anti-Slip • Durable Construction

Surface Design

Ribbed rubber surface

Compatibility & Installation

Installation

Compatible with standard motorcycle mounting points

Compatibility

Various Models, Standard Mounting
