

Motorcycle Front Fork Assembly with Custom Finish

This motorcycle front fork assembly features a custom red finish and chrome accents. It protects moving parts with rubber bellows while enhancing suspension performance.

Overview

High-Performance Front Fork Assembly

This premium motorcycle front fork assembly is designed to enhance both the aesthetic appeal and suspension performance of your motorcycle. Featuring a striking custom red finish on the fork legs paired with sleek chrome upper tubes, it offers a distinct visual upgrade. The inclusion of integrated rubber bellows provides essential protection against road debris, ensuring longevity and consistent performance for the moving suspension components.
