

Motorcycle Front Shock Absorber for CG125

This front shock absorber is designed for CG125 motorcycles. It provides superior damping and control, ensuring a smooth and comfortable ride.

Overview

Performance and Durability

These high-quality front shock absorbers are specifically engineered for the CG125 motorcycle model. Designed to provide superior damping and control, they ensure a smooth and comfortable ride even under demanding conditions. Constructed from robust materials, these components are an ideal solution for replacing worn or damaged shock absorbers to restore vehicle stability and handling.

Compatibility

Compatible Model	CG125
------------------	-------

Technical Details

Component Type	Front Shock Absorber
Key Performance Features	Superior Damping, Improved Stability, Enhanced Handling
