

Motorcycle Headlight Fairing Upper Cover

This motorcycle upper cover, also known as a headlight fairing, enhances the aesthetic appeal and aerodynamic performance. Constructed from durable, impact-resistant plastic, it provides protection to the headlight assembly and contributes to a streamlined front profile.

Overview

Design and Functionality

This motorcycle upper headlight fairing cover is engineered to enhance both the aesthetic appeal and aerodynamic profile of your motorcycle. Constructed from durable, impact-resistant plastic, it provides essential protection to the headlight assembly while offering a modern, aggressive look suitable for sport bikes and streetfighters. The design features integrated mounting points for secure attachment and precise fitment, ensuring seamless integration with existing bodywork.

Design Specifications

Material	Durable, impact-resistant plastic
Finish	Matte finish
Key Design Features	Aerodynamic profile, Central recessed area, Modern angular design

Compatibility & Installation

Suitable For

Sport bikes • Streetfighters

Installation	Integrated mounting points for secure attachment
