Product Overview

High-quality inner tube designed for durability and puncture resistance.

High-Performance Motorcycle Inner Tubes

These motorcycle inner tubes are engineered for optimal performance and durability, featuring a robust construction designed to resist punctures and maintain consistent air pressure. Suitable for a wide range of motorcycle models, they provide a smooth and safe riding experience under diverse conditions. Each unit includes a standard valve stem for easy and reliable inflation.

Technical Specifications

Precision-engineered for consistent air pressure and reliable performance.

Color	Black
Valve System	Standard
