

Motorcycle Kick Starter

This motorcycle kick starter is made from high-quality 45# steel. It features standard and clever design elements.

Product Overview

High-Performance Motorcycle Kick Starter

This motorcycle kick starter is engineered with high-quality 45# steel to ensure durability and reliable performance. Featuring a standard yet clever design, it integrates advanced manufacturing technology to maintain a stable frequency during operation. Built to meet strict OEM quality standards, this component is designed for secure, long-lasting engine engagement.

Technical Specifications

Design Features

- Standard design
- Clever ergonomic engineering
- Includes rubber grip for comfort
- Secure mounting hardware

Material	45# Steel
Quality Standards	OEM Quality, Stable Frequency

Logistics

Packaging

Nice and neat packaging

Delivery	On-time delivery guaranteed
