

Motorcycle Lithium-Ion Starter Battery, 12.8V 130 CCA

This lithium-ion starter battery is designed for motorcycles and specialty vehicles. It has a 12.8V voltage and 130 CCA, delivering reliable starting power.

Overview

High-Performance Lithium-Ion Battery

This high-performance lithium-ion starter battery is engineered for motorcycles and various specialty vehicles. It provides reliable starting power and efficient energy delivery, making it an ideal upgrade for demanding applications. Compared to traditional lead-acid alternatives, this unit offers a significantly reduced weight and a longer operational lifespan.

Technical Specifications

Voltage	12.8 V
Cold Cranking Amps (CCA)	130 CCA
Energy Capacity	26 Wh

Key Features

Battery Chemistry

Lithium-Ion

Suitable For

Motorcycles, Specialty Vehicles
