

Motorcycle Muffler Mounting Bracket

This high-strength steel mounting bracket is designed for secure attachment of motorcycle mufflers. It is constructed from durable materials to withstand extreme conditions and ensure long-lasting performance.

Product Overview

High-Performance Mounting Solution

This high-strength steel mounting bracket is precision-engineered to provide a secure and stable attachment for motorcycle mufflers. Designed to withstand extreme operational conditions, the bracket features vibration-dampening capabilities and a specialized surface treatment for superior corrosion resistance. Its versatile design ensures compatibility with various motorcycle models, making it a reliable choice for professional maintenance and assembly.

Technical Specifications

Surface Treatment

Corrosion Resistant

Key Features

- Precision-engineered hole placements
- Vibration dampening design
- High-strength durable construction
- Universal compatibility

Material

High-strength steel
