Product Overview

Engineered for reliable oil pump operation and proper lubrication.

High-Performance Oil Pump Chain

This high-quality oil pump chain is precision-engineered for optimal engine lubrication and reliable performance. Designed specifically for compatibility with 400cc, 500cc, and 700cc engine series, it meets rigorous standards for durability. This component is an essential replacement part to ensure the longevity and smooth operation of your ATV or UTV drivetrain system.

Technical Specifications

High-quality construction ensures efficient engine performance.

Durable 25H chain design suitable for demanding applications.

Chain Specification	70-section
Chain Type	25H

Compatibility

Compatible Models

- HS-22
- HS400
- HS500
- HS700

Compatible Engines

HS185MQ 400cc, HS185MR 500cc, HS11

Product Details

Application Types

ATV • UTV • Gokart

Part Number

HS-22
