

Motorcycle Piston Kit for AX100 D50 Engine

This piston kit is designed for the AX100 engine model with a bore size of D50. The kit includes the piston, piston rings, wrist pin, and circlips.

Product Overview

High-Performance Piston Kit

This precision-engineered piston kit is specifically designed for the AX100 engine model with a 50mm bore size. Crafted from high-quality aluminum alloy, the assembly offers excellent durability and superior heat resistance for demanding riding conditions. The kit provides a comprehensive solution for engine maintenance, including the piston, rings, wrist pin, and circlips, ensuring a direct fit and optimal compression.

Technical Specifications

Engine Compatibility	AX100
Bore Size	50 mm
Material	High-quality aluminum alloy

Kit Contents

Components Included

- Piston
- Piston rings
- Wrist pin
- Circlips

Key Features

Performance Benefits

Heat Resistant • Optimal Compression • Precision Machined • Direct Replacement
