

Motorcycle Rear Passenger Foot Pegs

These motorcycle foot pegs provide a place for rear passengers to rest their feet. They feature a ribbed rubber surface for enhanced grip and are mounted with a durable metal bracket.

Product Overview

High-Grip Motorcycle Rear Foot Pegs

These motorcycle rear passenger foot pegs are engineered for durability and passenger comfort. Featuring a robust metal mounting bracket and a high-traction rubberized surface, they ensure stable footing and long-lasting performance in various riding conditions. This pair is designed for easy installation on standard motorcycle rear mounting points, making them an ideal replacement or upgrade for enhanced passenger safety.
