

Motorcycle Rear Shock Absorber

High-performance rear shock absorbers designed for motorcycles. These shocks feature a durable coil spring and robust construction for enhanced stability and ride comfort.

Product Overview

High-Performance Rear Suspension

This rear gas shock absorber is precision-engineered for DAX SKYMAX motorcycles, ensuring enhanced stability and ride comfort. Featuring a durable coil spring and a robust outer diameter of 42.5mm, it provides superior handling and improved control. It serves as an ideal replacement for worn or damaged components, built to withstand the rigorous demands of daily operation.

Technical Specifications

Compatibility

- DAX SKYMAX

Outer Diameter

42.5 mm

Total Length

335 mm

Suspension Type

Gas Charged, Coil Spring, Thin Type
