

Motorcycle Rear Shock Absorber 340mm

This motorcycle rear shock absorber is designed for enhanced vehicle stability and ride comfort. It has mounting holes of $\text{Æ}12.1 \times 27$ and $\text{Æ}12.1 \times 30$, with a center distance of 340 ± 2.0 mm.

Product Overview

High-Performance Suspension Solution

This high-performance rear shock absorber is engineered to significantly enhance vehicle stability and overall ride comfort. Equipped with a robust spring and damper system, it ensures optimal performance and reliability across a wide range of demanding driving conditions. It serves as an ideal component for automotive applications requiring precision suspension components.

Physical Dimensions

Eye-to-Eye Length	340 mm
-------------------	--------

Technical Features

Performance Features

- Enhanced vehicle stability
- Improved ride comfort
- Durable spring and damper system
- Optimized for diverse driving conditions

Recommended Application	Automotive, Suspension, Motorcycle
-------------------------	------------------------------------
