

Motorcycle Rear Shock Absorber 340mm

This motorcycle rear shock absorber is designed for enhanced vehicle stability and ride comfort. It has a 340mm center distance between mounting holes and is suitable for JH70 models.

Product Overview

Superior Damping Performance

This high-performance rear shock absorber is engineered to significantly enhance vehicle stability and overall ride comfort. Its robust construction features a durable red-finished cylinder paired with a precision silver-finished piston rod for long-lasting reliability. Designed for superior damping control, it effectively reduces body roll and improves vehicle handling across a variety of applications.
