Overview

High-Performance Suspension Solution

This high-performance rear shock absorber is engineered for demanding MX and Enduro riding conditions. Featuring a robust 6061 aluminum gas tank and a durable 40Cr steel piston rod, it offers superior control and stability. With adjustable compression and rebound damping, riders can fine-tune their suspension response for optimal performance and comfort across various terrains.

Physical Dimensions

Mounting Specifications

Component	Dimension
Top Mount Width	24mm
Top Mount Hole Diameter	10mm
Bottom Mount Width	20mm
Bottom Mount Hole Diameter	10mm
Length (Eye-to-Eye)	482 mm
Piston Rod Diameter	16 mm

Technical Specifications

Spring Rate

300 LBS/IN

Spring Rate

Adjustment Features

- Adjustable compression damping
- Adjustable rebound damping
- Nitrogen-charged gas tank

Materials Used

6061 Aluminum, 40Cr Steel, Polyurethane, 55CrSi Steel

Application

Recommended Use

MX • Enduro
