

Motorcycle Rear Shock Absorber with 255mm Center Distance

This motorcycle rear shock absorber is designed with an installing hole under of 2-Æ8. It has a center distance of 255±2.0.

Product Overview

High-Performance Suspension Solution

This high-performance rear shock absorber is engineered to provide superior damping and optimal ride comfort. It features a robust coil spring design that effectively absorbs impacts and vibrations, ensuring enhanced vehicle stability and control. Built with durable materials, it offers long-lasting reliability and improved handling across various driving conditions.

Technical Specifications

Center Distance	255 mm
Component Type	Coil Spring Rear Shock Absorber

Key Features

Performance Attributes

- Durable construction for reliability
- Optimal vibration and impact absorption
- Adjustable settings for custom tuning
- Enhanced vehicle handling and stability

Compatibility & Features	Adjustable, Vibration Damping, Enhanced Control
