Product Overview

High-Performance Motorcycle Spark Plug

The E6TC spark plug is engineered to provide reliable ignition and efficient combustion for motorcycle engines. Designed for durability under high temperatures and pressures, this component helps optimize fuel economy and ensures smoother engine operation. It serves as a versatile replacement option compatible with various global spark plug standards, making it a reliable choice for maintenance and performance upgrades.

Technical Specifications

Model	E6TC
Compatibility & Features	Resistor type, Iridium-platinum, Multi-ground electrode, V-cut center-electrode, Surface-sparking, Nickel copper, V-groove center-electrode
Interchangeability	Compatible with major international spark plug brands including NGK, DENSO, CHAMPION, and BOSCH.

Quality Assurance

Quality Grade

Customizable quality grade • Reliable ignition • Fouling resistant
