

Motorcycle Spoked Wheel with Chrome Rim

This motorcycle spoked wheel features a central hub with spokes extending to the rim. The rim is made of chrome-plated steel for durability and corrosion resistance.

Product Overview

Classic Design Meets Structural Integrity

This motorcycle spoked wheel is engineered to combine classic aesthetics with robust performance. Featuring a durable chrome-plated steel rim and a lightweight aluminum hub, it offers an optimal balance of strength and flexibility. The design is ideal for riders seeking a traditional look without compromising on structural reliability.

Construction & Materials

Rim Material	Chrome-plated steel
Hub Material	Aluminum
Spoke Material	Steel

Key Features

Key Characteristics	Spoked Design, Corrosion Resistant, High Strength, Classic Appearance
