

# Motorcycle Tail Light Assembly

This is a motorcycle tail light assembly with integrated turn signals. It provides rear indication and safety lighting.

## Product Overview

### Professional Motorcycle Tail Light Assembly

This rectangular motorcycle tail light assembly is designed to provide reliable rear signaling and safety lighting for a wide range of motorcycles. Featuring a distinct combination of red brake light and amber turn signal lenses, it ensures clear visibility for following traffic. The unit is built with a durable chrome or silver-colored base, offering both aesthetic appeal and resistance to environmental elements.
