Product Overview

High-Performance Transmission Assembly

This transmission main and counter shaft assembly is engineered for durability and reliable power transfer in motorcycle engines. Constructed from a robust combination of stainless and iron steel, these components are designed to withstand the rigors of daily operation. The assembly is compatible with a wide range of popular motorcycle series, making it a versatile choice for repair and maintenance.

Technical Specifications

Material	Stainless steel & Iron Steel
Diameter Range	2-1000mm

Compatibility

Compatible Series	AX 100, CG-125/150/200/250, C-70/90/110, WY-125/150, GN Series, EN Series, BAJAJ Series
-------------------	---

Logistics

Packing Options	Paper Box • Steel Box
Port of Loading	FOB Guangzhou/Huangpu Port
