

Motorcycle Transport Barrow with Oil Drip Pan

This motorcycle barrow is designed to support up to 1250lbs, facilitating easy motorcycle transport and maintenance. It features a durable steel frame, smooth-rolling casters, and an integrated oil drip pan for clean operations.

Overview

Professional Motorcycle Transport Barrow

This heavy-duty motorcycle transport barrow is engineered for efficient maneuverability and maintenance in professional garages, workshops, and showrooms. Featuring a robust steel frame with a protective blue finish, it provides a stable and reliable platform for motorcycles up to 1250 lbs. The design includes smooth-rolling casters for effortless movement in tight spaces and an integrated oil drip pan to maintain a clean and safe work environment.
