

Motorcycle Travel Luggage Bag

Motorcycle luggage designed for travel and storage. These bags provide a secure and convenient way for riders to carry their belongings.

Overview

Engine Performance Overview

This single-cylinder, four-stroke engine is engineered for reliable performance in small to medium displacement motorcycles. It features an efficient air-cooling system and a robust, horizontally-split crankcase design. The unit comes fully equipped with essential components including the cylinder head, cylinder block, and electric starter, ensuring straightforward integration for assembly or replacement projects.

Technical Specifications

Cooling System

Air Cooled

Engine Type

Single-cylinder, four-stroke

Crankcase Design

Horizontally-split

Starting Mechanism

Electric start

Identification

Model Code

166FMT-2

Serial Number

4751181

Components

Included Components

- Cylinder head
- Cylinder block with cooling fins
- Crankcase
- Starter motor
