

Motorcycle with Front Fairing and Rear Carrier

This motorcycle has a black fuel tank with silver and red accents and a single seat. It features chrome exhaust, spoked wheels with disc brakes, a front fairing, a single headlight, and a rear carrier.

Overview

Versatile Utility Motorcycle

This utility-focused motorcycle is designed for reliability and daily transport needs. It features a robust air-cooled engine and a practical design that includes a rear carrier for cargo and a protective front fairing. With its combination of spoked wheels and disc brakes, it offers a balanced performance for various road conditions.
