

Motorized Tab-Tensioned Projection Screen

This high-quality projection screen features a tab-tensioned design for optimal image flatness and clarity. Its motorized system ensures smooth and quiet operation, making it suitable for home theaters, conference rooms, and educational environments.

Product Overview

Professional Tab-Tensioned Projection Solution

This motorized tab-tensioned projection screen is engineered to provide a perfectly flat viewing surface, ensuring optimal image clarity and eliminating common wrinkles or distortions. Equipped with a robust and quiet motorized system, it is designed for seamless operation in professional environments. The screen is highly versatile, making it an ideal choice for high-end home theaters, corporate conference rooms, and modern educational settings.
