

Motorized Utility Tricycle with Cargo Bed

This motorized tricycle is designed for utility and transport, featuring a motorcycle-style front end. It has a large cargo bed at the rear, supported by dual wheels, making it suitable for carrying substantial loads.

Overview

Versatile Cargo Utility Tricycle

This motorized utility tricycle is engineered for heavy-duty transport and hauling applications. Featuring a robust gasoline-powered engine and a reinforced rear cargo bed, it provides a stable and reliable solution for moving goods. Its ergonomic design ensures ease of operation for professional users in various logistics or industrial environments.

Technical Specifications
