Product Overview

High-Performance Mud Pump Liners

These mud pump liners are engineered for demanding drilling applications, offering exceptional wear resistance and extended service life. Available in both Bi-metal and Ceramic Zirconia configurations, all products are fully exchangeable with OEM equipment. Each unit is built with a high-strength alloy steel outer hull to ensure durability and reliable performance in harsh operating conditions.

Technical Standards

Industry Standards	API-7K
OEM Compatibility	Yes

Liner Types

Bi-metal Liner Features

- High strength alloy steel outer hull
- High Chrome alloy inner sleeve
- Honed to mirror finishes
- HP design to prevent inner sleeve slippage

Ceramic Zirconia Liner Features

- High strength alloy steel outer hull
- Ceramic inner sleeve
- Superior heat resistance
- Superior corrosion resistance

Accessories

Available Seals

Rubber Liner Seals • Urethane Liner Seals
