

Mud Pump Replacement Part Set

This set contains essential components for maintaining mud pump performance. These replacement parts are made of premium materials and are designed to meet API-7K standards.

Product Overview

High-Performance Mud Pump Components

This replacement part set provides essential components for major industrial mud pumps, ensuring reliable performance in demanding drilling environments. Engineered to meet or exceed API-7K standards, these parts are fully interchangeable with original equipment manufacturer components. Designed for durability, the set includes critical wear parts such as pistons, sleeves, valves, and sealing rings to maintain optimal pump efficiency.

Standards & Quality

Compliance Standards

API-7K, API Certified

Compatibility

Compatible Pump Brands

- National
- Emsco
- Ideco
- Gardner Denver
- Oilwell
- 3NB Series

Supported Models

Brand	Supported Models
National	7P-50, 8P-80, 9P-100, 10P-130, 12P-160, 14P-220
Emsco	F-350/500/650/800/1000, FB-1300/1600
Ideco	T-500/800/1000/1300/1600
Gardner Denver	PAH, PZ-7/8/9/10/11
Oilwell	A-850-PT, A-1100-PT, A-1400-PT, A-1700-PT
3NB Series	3NB-1300C, 3NB-1600, SL3NB-1300A, SL3NB-1600A, 3NB-500, 3NB-1000, TSM1600, TSM750-440/400

Components

Included Components

Pistons • Sleeves • Valves • Sealing Rings
