

# Multi-Band Emergency Dynamo Radio

This multi-band dynamo radio receives FM, MW, SW1, and SW2 bands. It features a dynamo crank for manual power generation and includes a rechargeable battery for continuous operation.

## Overview

### Reliable Emergency Communication

The GH-858 Multi-Band Dynamo Radio is designed for resilience and versatility in emergency situations or outdoor environments. It features an eight-band reception capability covering FM, MW, and SW1-6, ensuring you stay connected to critical information. With built-in dynamo power generation and multiple battery options, this device guarantees continuous operation even when traditional power sources fail.

## Technical Specifications

### Dynamo Output

**3 V**

Voltage

**400 mA**

Current

### Frequency Bands

FM, MW, SW1, SW2, SW3, SW4, SW5, SW6

### External Power Supply

DC 4.5V 300-400mA adapter

## Features

### Key Features
