

Multi-Blade Electrical Exhaust Fan

This multi-blade fan is designed for electrical and exhaust applications. Its durable construction features curved blades optimized for efficient airflow, making it suitable for household appliances, air conditioners, and ventilation equipment.

Product Overview

High-Efficiency Ventilation Solution

This multi-blade electrical exhaust fan is engineered for optimal airflow and heat dissipation in various professional and household applications. Designed with durable, curved blades, it provides reliable performance for air conditioning units and ventilation systems. Its robust construction ensures effective air movement, making it a versatile component for demanding electrical equipment environments.

Technical Specifications

Blade Configuration	Multi-blade, curved design
Applications	Air Conditioners, Ventilation Equipment, Household Appliances, Electrical Cooling

Performance Features

Key Benefits

- Optimized for efficient airflow
- Durable construction for long-term use
- Effective heat dissipation capabilities
