Product Overview

Precision Measurement Tool

This Multi-Blade Feeler Gauge Set is a precision instrument designed for measuring small gaps or clearances between two parts. Featuring a set of thin metal blades of varying thicknesses, it is essential for automotive, mechanical, and engineering applications. It ensures proper spacing, alignment, and critical tolerance settings for components like valves and spark plugs.

Technical Specifications

Blade Thickness Range

- 0.02 mm
- 0.05 mm
- 0.08 mm
- 0.10 mm
- 0.13 mm
- 0.15 mm
- 0.20 mm
- 0.25 mm
- 0.30 mm
- 0.33 mm
- 0.35 mm
- 0.38 mm
- 0.40 mm
- 0.43 mm
- 0.50 mm
- 0.53 mm

Number of Blades

17

Measurement Units

Metric (mm), Imperial (inch)

Applications

Primary Applications

Automotive Maintenance • Mechanical Engineering • Valve Clearance Adjustment • Spark Plug Gap Setting

Design

Material	Hardened Steel
Housing	Protective folding holder
