

Multi-Color Label Cutting Machine

This multi-color label cutting machine is designed for producing durable and visually appealing labels. The machine offers precise cutting and printing capabilities, enabling the creation of custom labels for various applications.

Overview

Professional Multi-Color Label Printing and Cutting

This professional-grade label cutting machine utilizes advanced thermal transfer technology to deliver high-resolution, 400 DPI prints. Designed for efficiency and durability, it creates weather-resistant, long-lasting labels suitable for diverse industrial and commercial applications. With user-friendly operation and included software, it provides a cost-effective solution for enhancing production management, site organization, and workplace safety.

Printing Performance

Print Resolution	400 DPI
Printing Speed	25 mm/s
Printing Mode	Thermal transfer

Technical Specifications

Maximum Cutting Area	100 x 1000 mm
Split Output Print Size	190 x 1000 mm
Transmission Mode	Tooth pass-type

Physical Dimensions

Dimensions (W x L x H)	330 x 320 x 320 mm
Weight	9 kg

Power Requirements

Power Specifications

100 V

Min Voltage

240 V

Max Voltage

85 W

Power Consumption

Included Accessories

Package Contents

- Label cutting machine
- Operation manual
- Installation software and library
- USB cable
- Cutter
- Tweezers
- Wrench
- Scraper
- AC Power Plug
