

Multi-Conductor Electrical Wire

This multi-conductor electrical wire features color-coded PVC insulation. It is suitable for general-purpose wiring applications for power and lighting.

Overview

Versatile Multi-Conductor Electrical Wiring

This multi-conductor electrical wire is engineered for reliable power transmission across a wide range of residential, commercial, and industrial applications. Available in various voltage ratings and conductor materials, it features robust PVC insulation and sheathing for enhanced durability and safety. Designed for easy installation, the color-coded internal conductors ensure efficient wiring for power and lighting systems.

Technical Specifications

Conductor Material

Copper • Aluminum

Conductor Type

Solid • Stranded

Key Specifications

4 mm²

Cross-sectional Area

Voltage Ratings

300/300V, 450/750V, 600/1000V

Construction

Insulation & Sheathing

PVC (Polyvinyl Chloride)

Logistics

Available Packaging

- 100m Coil
- 100yds Coil
- 100m Reel
- 100yds Reel
