

Multi-Connector Car Charger with Digital Display

This car charger includes a digital display for voltage monitoring. It features a coiled cable and multiple connectors (USB Type-C, Lightning, and Micro-USB) for charging various devices simultaneously.

Product Overview

Versatile In-Car Charging Solution

This multi-connector car charger is designed to provide reliable power for a wide range of mobile devices while on the road. Featuring a built-in digital display for real-time voltage monitoring, it ensures safe and efficient charging for smartphones and tablets. The unit includes a durable, 1.3-meter spring cable, offering flexible reach and a clutter-free interior.

Technical Specifications

Output Power

5 V

Output Voltage

3.1 A

Output Current

Input Voltage	12 V
Max Input Voltage	24 V

Connectivity

Available Connector Options

- Type C
- Micro USB
- Lightning
- 3-in-1 Cable

Cable Length	1.3 m
Included Cable	Type C Spring Cable (3A)

Compatibility

Compatible Brands	iPhone, iPad, Huawei, Samsung, Xiaomi, Vivo, Oppo
