

# Multi-Door Refrigerator with Adjustable Shelves

This refrigerator features a multi-door design with adjustable shelves and compartments for optimal storage. It includes a freezer section with separate drawers for organized freezing.

## Product Overview

### Versatile Multi-Door Cooling

This multi-door refrigerator is engineered for optimal organization, featuring adjustable shelves and dedicated freezer drawers to suit diverse storage needs. It prioritizes efficiency with a high-performance cooling system that ensures frost-free operation and intelligent temperature control. Designed for modern settings, it combines energy-saving technology with a unique floral exterior finish to provide both aesthetic appeal and practical functionality.

## Performance & Efficiency

### Key Performance Metrics

**255 L**

Total Capacity

**0.68 kWh/day**

Daily Energy Consumption

### Energy Efficiency Class

Tier 1 Energy Efficiency • Energy Saving

## Technical Specifications

### Core Features

- Multi-door design
- Adjustable shelving
- Separate freezer drawers
- Odour removal and sterilization
- Digital temperature control

### Cooling System

Air-Cooled, Frost-Free, Intelligent Temperature Control
