

# Multi-Fuel Power Generator

This multi-fuel power generator is engineered for reliable power generation from various fuel sources. Featuring multiple input and output ports and mounted on heavy-duty wheels, it offers versatility and ease of maneuverability.

## ADDITIONAL IMAGES

## Overview

### Versatile Power Generation

This multi-fuel generator set offers a reliable and flexible backup power solution for both residential and commercial applications. Designed for versatility, it operates on NG, LPG, or petrol, ensuring you have the power of choice regardless of fuel availability. Its liquid-cooled system enhances longevity and reduces operational noise, while the robust, corrosion-proof enclosure ensures performance in all weather conditions.

## Performance Metrics

### Rated Power Options

**17 kw**

Rated Power Option 1

**23 kw**

Rated Power Option 2

### Fuel Compatibility

Natural Gas (NG), Liquefied Petroleum Gas (LPG), Petrol

## Key Features

### Operational Benefits

- Liquid-cooled system for reliability and noise reduction
- Clean, smooth power output for sensitive electronics
- High fuel efficiency with lower emissions
- Wide temperature operation range for extreme climates
- Corrosion-proof all-weather enclosure

## Safety & Control

### Safety Features

Emergency Stop Switch • Automatic Backup Power
