

# Multi-Function Bathroom Heater with Ventilation and Lighting

This bathroom appliance features dual infrared heat lamps for rapid heating. It also includes a ventilation fan to reduce moisture and odors, plus integrated lighting.

## Product Overview

### All-in-One Bathroom Comfort Solution

This multi-functional bathroom appliance is designed to enhance comfort by combining rapid infrared heating, efficient ventilation, and integrated lighting into a single ceiling-mounted unit. The dual infrared heat lamps provide immediate warmth, while the built-in ventilation system effectively reduces moisture and odors to maintain a fresh environment. With independent controls for each function, this unit offers flexible operation tailored to your specific needs.

## Technical Specifications

### Performance Features

- Rapid warmth generation
- Moisture reduction
- Odor control
- Optimized heat distribution via reflective surfaces

Mounting Type	Ceiling Mounted
