

Multi-Function Garden Power Tool

This multi-function garden power tool is designed for various tasks such as trimming, cutting, and edging. It features a powerful engine and interchangeable attachments, including a brush cutter, hedge trimmer, pole saw, and grass trimmer.

Overview

Versatile 4-in-1 Garden Solution

This multi-function garden power tool is designed for versatility and efficiency, serving as a comprehensive solution for lawn mowing, tree branch trimming, and hedge maintenance. It features an interchangeable 4-in-1 design that allows for quick transitions between a brush cutter, hedge trimmer, and pole chain saw. Built for durability and ease of use, it is an ideal choice for professional landscaping, agricultural orchards, and park maintenance.

Technical Specifications

Engine Displacement	26 CC
Mating Power Model	1E34F-5B
Standard Power Output	0.7/6500 kw/r/min
Mixed Fuel Ratio	25:1
Fuel Consumption	740 g/kw.h
Net Weight	14.4 kg

Features & Capabilities

Included Attachments

- Brush cutter (Triangle blade)
- Trimmer head
- Hedge trimmer
- Pole chain saw

Suitable Environments

Lawn Mowing, Forest Fire Protection, Urban Landscaping, Highways, Orchards, Parks
