

Multi-Function Juicer and Blender Combo

This versatile kitchen appliance combines the functionality of a juicer and a blender, allowing users to create fresh juices and smoothies. It features a powerful motor, stainless steel filter, durable glass pitcher and multiple speed settings.

Overview

Versatile Kitchen Solution

This 4-in-1 multi-function appliance serves as a comprehensive kitchen workstation, combining a juicer extractor, blender, dry miller, and meat grinder in one unit. Designed for efficiency and safety, it features a whole apple feed tube and stainless steel components for consistent performance. With its modular design, the unit is easy to disassemble for cleaning, making it a practical choice for commercial or high-volume home environments.
