Overview

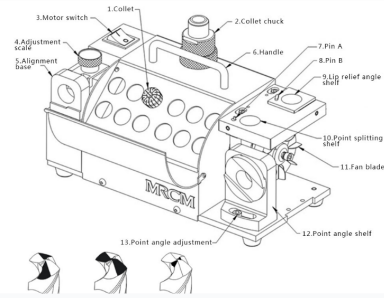

The MR-13D drill bit grinder provides precise and efficient sharpening.

Precision Drill Bit Maintenance

The MR-13D is a high-performance, multi-functional drill bit sharpener engineered for rapid and accurate grinding. Designed for professional workshops and manufacturing environments, it features an electrically controlled DC motor for stable, powerful operation. Its versatile design allows for the adjustment of point angles and central points, ensuring consistent quality and extended service life for your drill bits.

Technical Specifications

Detailed view of the sharpener components including collets, motor switch, and adjustment scales.

Model	MR-13D
Grinding Range	!2-!13(!15)
Point Angle	95°~135°
Motor Power	120 W
Speed	4400 rpm
Power Supply	AC220V

Physical Attributes

Compact design suitable for workshops and home use.

Dimensions	32 x 18 x 19 cm
Weight	10 kg

Equipment

Standard Equipment

- Grinding wheel: CBN (for HSS)
- Eleven collets: !3, !4, !5, !6, !7, !8, !9, !10, !11, !12, !13
- Collet chuck: (!2-!14) x 1

Optional Equipment

- Grinding wheel: SD (for Carbide)
- Collets: !2, !2.5, !3.5, !4.5, !5.5, !14, !15
- Collet chuck: !15

Key Features

The quickest grinding of a bit is only 10 seconds.
Precision grinding, fast and efficient.

Achieve professional grinding results in as little as 10 seconds.
