

# Multi-Layer Air Purification System

This air purifier is designed for home or office use, effectively removing dust, pollen, smoke, and odors. It features a multi-layer filtration system and digital display for monitoring air quality.

## Product Overview

### Advanced Air Purification Solution

This multi-layer air purification system is engineered for professional and residential environments, effectively improving indoor air quality. It utilizes a comprehensive filtration process including a pre-filter, HEPA filter, activated carbon filter, and optional UV sterilization to capture dust, pollen, smoke, and odors. Designed for convenience and performance, it features a digital air quality monitor and multiple operation modes.

## Performance & Technical

Recommended Room Size	500 sq ft
Power Consumption	50 W
Noise Level	<55dB

## Physical Dimensions

Dimensions	15 x 8 x 24 inches
Weight	12 lbs

## Features

### Filtration Stages

- Pre-filter
- HEPA filter
- Activated carbon filter
- Optional UV sterilization

### Smart Features

Digital Air Quality Display, Filter Life Monitor, Multiple Fan Speeds, Sleep Mode
