

Multi-Layer Filtration Air Purifier

This air purifier is designed to remove dust, pollen, smoke, and other airborne particles. It features a multi-layer filtration system with a pre-filter, HEPA filter, and activated carbon filter.

Product Overview

High-Performance Air Purification

The GL-2108A is a high-efficiency air purifier engineered to significantly improve indoor air quality by removing dust, pollen, smoke, and other airborne particles. Utilizing a comprehensive multi-layer filtration system, it ensures a cleaner environment for both residential and professional settings. Its intuitive control panel allows users to easily manage fan speeds and timer settings for customized operation.

Technical Specifications

Filtration Stages

- Pre-filter
- HEPA filter
- Activated carbon filter

Model Number	GL-2108A
Removes	Dust, Pollen, Smoke, Airborne particles

Usage & Controls

Control Features

- Adjustable fan speed
- Timer settings

Suitable Environments

Homes • Offices
