Product Overview

Versatile Multi-Material Performance

This high-performance cutting disc is engineered for versatility, allowing professionals to cut through metal, masonry, PVC, inox, and non-ferrous metals with a single tool. Featuring a resin-bonded, reinforced two-net construction, it offers exceptional durability and safety during operation. Designed for use with portable angle grinders, this disc combines sharpness with high working efficiency for demanding industrial tasks.

Technical Specifications

Dimensions	115 x 1.2 x 22.2 mm
Maximum Speed	13290 RPM
Linear Speed	80 m/s
Construction	Resin-bonded, Reinforced-two nets

Compatibility & Usage

Compatible Materials

- Metal
- Masonry
- PVC
- Inox
- Non-ferrous metal

Compatible Machinery

Portable angle grinder

Performance

Key Features

Durable • Sharp • Safety-focused • High Efficiency
