

Multi-Meter Distribution Box

This multi-meter distribution box is designed for housing multiple electricity meters. It features a robust metal enclosure with individual meter compartments, viewing windows, a secure locking mechanism and is suitable for indoor or outdoor installation.

Overview

Robust Multi-Meter Distribution Solution

This multi-meter distribution box is engineered to provide a secure, centralized housing solution for multiple electricity meters in residential or commercial settings. Featuring a durable metal enclosure with individual compartments and viewing windows, it ensures both ease of monitoring and protection against tampering. Designed for versatile installation, this unit supports both indoor and outdoor environments, offering an organized and reliable infrastructure for electrical metering.
