Overview

Versatile Power & Fast Charging Solution

This multi-outlet power adapter is designed to convert a single wall outlet into a versatile charging station, ideal for home, office, or international travel. It features a high-capacity AC outlet alongside dual USB ports, supporting USB Power Delivery (PD) 18W for rapid charging of mobile devices. Built with integrated surge protection, it ensures your connected electronics remain safe from voltage spikes while providing a compact, space-saving design.

Power Specifications

Performance Highlights
