

Multi-Pair Communication Cable, 24 AWG

This multi-pair communication cable is designed for data transmission and telecommunications applications. It features 56 twisted pairs of 24 AWG conductors.

Product Overview

Professional Communication Solutions

The SYT+1 series is a high-performance multi-pair communication cable engineered for reliable data transmission in professional telecommunications and networking environments. Featuring 56 twisted pairs of 24 AWG conductors, this cable ensures stable signal integrity across complex installations. With its robust white protective jacket and color-coded insulation, it provides both durability and efficient identification for structured cabling systems.

Technical Specifications

| | |
|-----------------|--------|
| Conductor Gauge | 24 AWG |
| Pair Count | 56 |

Physical Properties

| | |
|--------------|-------|
| Jacket Color | White |
|--------------|-------|

Application

Recommended Applications

- Structured cabling systems
- Voice networks
- Data networks
- General telecommunications

Compliance

| | |
|-----------------|--|
| Design Features | Twisted pairs, Color-coded insulation, Protective outer jacket |
