Product Overview

Modern Multi-Panel Illumination

This high-efficiency LED bulb features an innovative multi-panel design with freely adjustable blades, allowing for customized light distribution. Engineered for large areas, it provides bright, uniform illumination suitable for demanding environments. Its energy-efficient technology and modern aesthetic make it an ideal lighting solution for both residential and commercial spaces.

Key Features

Design Highlights

- Freely stretched/adjustable blades
- Four-leaf clover style configuration
- Heat-dissipating base construction
- High-intensity LED panels

Recommended Applications

Home, Office, Supermarket, Workshop
