

Multi-Pattern Spray Nozzle for Cleaning and Gardening

This spray nozzle features multiple spray patterns, including shower and mist, selectable through a rotating head. It is made from durable plastic and has an ergonomic handle with multiple grip points for comfortable operation.

Product Overview

Versatile Spray Performance

This multi-pattern spray nozzle is engineered for both professional cleaning tasks and gardening applications. Featuring an ergonomic handle with multiple grip points, it ensures user comfort during extended operation. The rotating head design allows for seamless switching between different spray patterns, including shower and mist, to suit various requirements.
