Product Overview

High-Performance Ignition System Component

This multi-port ignition coil is engineered to deliver a reliable and consistent spark for optimal engine performance. Constructed with durable materials to withstand extreme temperatures and vibrations, it ensures long-lasting reliability and smooth engine operation. The design promotes efficient combustion, which helps improve overall fuel efficiency and reduce harmful emissions.

Technical Specifications

Compatible Vehicle Makes

- Citroen
- Geely
- Fiat

Design Features

Multi-port design • Dry ignition coil • Multi-pin connector • Enhanced insulation • Direct-fit design
